IT'S NOT JUST A HOME. IT'S A WAY OF LIFE.

Lots at Woodland come paired with a number of beautiful, functional home options—specially designed to complement your lot. Ranging from single-family to duplex, our homes incorporate the following design approaches:

Net Zero

Using the latest solar technology, robust insulation, efficient appliances, and smart air circulation, our Net Zero homes generate more energy than they need, creating an extremely clean, stable, and cost-saving environment—no matter the season.

Beauty

Aesthetic beauty has a profound impact on the body, mind, and spirit. Our harmonious and elegant homes are designed to calm the senses, balance emotions, and imbue a sense of inner peace.

The Family Unit

Since ancient times, multiple generations have lived together under one roof. Our designs revive this tradition by creating environments for family living, while balancing the need for privacy and space.

Longevity

Our homes are designed to last and built with high quality materials and craftsmanship to stand the test of time. In some designs, flexible living spaces can adapt and change along with your needs.

Return on Investment

Our homes are designed with return on investment in mind, with options to generate one or more income streams. Both duplex and mother / daughter homes can be treated as a residence with a separate rental, or as an investment with two rental incomes.
